

Bahrain solar developers

Is Bahrain's first solar panel company the start of a sea change?

This is good news for Solar One, Bahrain's first solar panels company. Since its founding in 2017, the startup boasts of contributing over two megawatts of solar to the country's energy mix -- enough to power around 380 US homes. It's a drop in the ocean, but it hopefully marks the beginning of a sea change.

Is Bahrain transitioning to solar energy projects?

After the establishment of the Sustainable Energy Unit (SEU) in Bahrain in 2014, a radical transition toward launching solar energy projects can clearly be observed. The SEU was established in collaboration between the national government and the United Nations Development Program (UNDP).

Is solar PV a social issue in Bahrain?

Although there are fewer peer-reviewed studies on the social aspects of solar PV compared to technical studies, the present research sheds light on public perspectives on this topic in Bahrain. In fact, it used a cross-sectional design for this purpose.

Who is Solar One?

We have formed strong relationships with both the public and private sector to deliver high-quality, cost-competitive products and services to the market. Solar One has evolved from operating purely as a module manufacturer to a full-on project developer, adding an EPC arm to the company in mid-2017.

Solar One's mission is to lead Bahrain towards meeting the renewable energy goals set by the kingdom's leaders. Since its inauguration in 2017, the company has installed over two megawatts in solar energy capacity, and aims to continue adding to this in all sectors (commercial, industrial, residential) in 2021 and beyond.
