Carlton Power establishes partnership to develop hydrogen project in Barrow-in-Furness. A new private-public sector partnership has been established to build Cumbria's first low-carbon hydrogen hub to provide local businesses - for example energy intensive industries or those with transport fleets - with easy access to hydrogen fuel.

Kitt Green is Carlton Power's fifth green hydrogen project it's developing in the UK. The Kraft Heinz Company has signed an agreement with Carlton Power, the UK energy infrastructure development company, to study the development of a renewable green hydrogen plant at its Kitt Green manufacturing plant in Wigan, Greater Manchester.

CARLTON'S LANGAGE GREEN HYDROGEN HUB IN DEVON TO SUPPLY SIBELCO & IMERY'S MINERALS. Following last month's announcement that its Langage Green Hydrogen project (located eight miles east of Plymouth, Devon) had been shortlisted by the UK Government for financial support, Carlton Power has signed partnership agreements for ...

Parts of Cuba experienced blackouts starting on 8 February 2024. On February 13, 45% of the country was affected by power outages. In March 2024, Cuba experienced large-scale power outages, amidst an economic crisis that hit the country. The blackouts, which peaked on 17 March and typically lasted for up to 18 hours a day, were due to the frequent breakdowns of the Antonio Guiteras Thermoelectric Power Plant, ...

We're very pleased to have been listed by Business Green in their Top 50 of green innovators in the UK - principally for our work in developing green hydrogen across the country. Business Green says: "clean energy developer Carlton Power is having a bonanza year. N

Trafford Green Hydrogen is the first of a number of Green Hydrogen schemes in development by Carlton Power in the UK. Trafford Green Hydrogen is an industry leading project, that will use renewable energy to produce green hydrogen fuel for industry, transport and heating.

As the year began, Cubans observed a rise in power outages, particularly in the eastern provinces. By March, the Antonio Guiteras Thermal Power Plant experienced breakdowns, leaving several provinces without power. The situation worsened in May and June, with some regions enduring outages for up to 12 hours daily.

Kraft Heinz is partnering with Carlton Power to deliver the company's first renewable green hydrogen project in the UK. The proposed scheme has the potential to fuel at least 50% of Kraft Heinz's Kitt Green manufacturing plant in Wigan (pictured), helping reduce carbon emissions and advance the company towards its larger net zero ambitions.
