

Chile big wind llc

Where is Chile's biggest wind farm?

Chile has inaugurated its biggest ever wind farm as part of its bid to wean itself off fossil fuels and tap its massive potential for renewable energy. The El Arrayan farm is located on a coastal hillside 400km (250 miles) north of the capital Santiago.

Is Chile a good place to build a wind farm?

Chile is also one of the most volcanic countries in the world, making geo-thermal power a viable option. It has one of the longest coastlines in the world, with great potential for wave and tidal power. And, finally, there are some areas of the country that are ideal for wind farms like El Arrayan.

Are multinational companies investing in wind energy in Chile?

Many multinational corporations and local firms are investing in the growing wind sector with the help of the government of federal provinces in Chile. As of 2022, total renewable energy installed in the country accounted for 17,910 MW, comparatively higher than the 14,890 MW installed in 2021.
