As part of Citus Power's own renewable energy portolio, development of the project started in 2014. Citus power acted as developer, investor, EPC and operator of the project after its COD in 2016. This solar PV power plant is one of the early generation of MW-scale projects in Turkey and was the sixth largest solart PV plant at COD.

Citus Power is the youngest member of a family group of companies active in many industries for more than 50 years. We were established to conduct the group's investments in renewable energy, to develop, build and operate wind and solar power plants. We started by investing in our own projects and later opened up these services to outside ...
