

Dale power solution Mayotte

What services does Dale Power Solutions offer?

We offer a range of services, including support for all your diesel generators, gas turbines and DC UPS systems. Dale Power Solutions supplies secure power solutions to all major UK and international market sectors.

Why should you choose Dale Power Solutions?

As a Dale Power Solutions customer, you will benefit from guaranteed response times and service around-the-clock, around-the-calendar. We are uniquely qualified to maintain power supplies under any conditions, in any environment. We offer a comprehensive range of products and services to provide a total power solution.

What equipment does Dale supply & maintain?

At Dale, we supply and maintain an extensive range of uninterruptible power supplies (UPS), commercial and industrial generators, and energy storage systems. We're busy gearing up for one of our most anticipated events in the exhibition calendar.

Due to company growth and the progression of our existing colleagues, an opportunity for a Generator Service Engineer has become available. If you wish to learn more about the role please get in touch at HR@dalepowersolutions to arrange an informal discussion.

Industrial DC UPS / Battery Chargers - Single Phase Input. The DCV and CV range of single-phase input Thyristor based DC systems can be configured to provide DC output voltages from 24V up to 220V nominal with output currents up to 250A.

With remote monitoring you can identify power issues early reducing the risk of needing response solutions to downtime, power outages or blackouts. You can access and control vital statistics from your mobile devices, and make effective decisions quickly about your equipment.

Tailored to your needs. With 24V, 48/50V, 110V or 220V DC nominal voltages and 25A to 1250A DC outputs, single or three phase inputs, our range of DC systems can be tailored to suit your needs and are compatible with lead acid, nickel ...

Maintain generator performance. Diesel fuel can't be stored indefinitely and needs maintenance or polishing. It can begin to deteriorate within 60-90 days after refinement - leading to contamination such as sludge, algae, diesel bug and large water particles.

Tailored to your needs. With 24V, 48/50V, 110V or 220V DC nominal voltages and 25A to 1250A DC outputs, single or three phase inputs, our range of DC systems can be tailored to suit your needs and are

compatible with lead acid, nickel cadmium or lithium ion batteries Our Industrial DC systems have a wide range of applications that can be found in power generation, substations, ...

Our custom-designed Battery Energy Storage Solutions (BESS) are built to the individual requirements of each site. We can build scalable systems from 50kW to multi-megawatt systems either behind or in-front of the meter.

Dale Power Solutions is a leading provider of critical power solutions, dedicated to ensuring the reliability and efficiency of your power systems. With years of experience and a commitment to excellence, we offer a wide range of products and services tailored to meet your power needs. Partnering with Hotstart, we bring you cutting-edge genset ...

Dale Power Solutions (Dale) has invested in a new building at its manufacturing facility in Scarborough. The purpose built factory is 600m² and has been erected with a 14m roof height and is equipped with the latest state-of-the-art machinery and testing equipment.

But wear and tear over time is inevitable, so should you find yourself in a situation where you have a failure on your UPS system, Dale is on hand to help get you back up and running. We have a UK stock of new UPS systems that our team can deliver, position and install in no time at all.

With a solid background in engineering and property management, he has risen to be the present Director at Dale Power Solutions. Folorunsho Kolade. Head, Technical. A very experienced electrical engineer certified from University of Ife. He has attended various maintenance related course both in Nigeria and abroad.

A telecoms company reached out to Dale Power Solutions to see if we could help them capture the excess renewable energy they were producing. The need. With 88KW of solar PV on their rooftop, their generation far outweighed their energy consumption. As things were, they sold their excess back to the grid for 5.5p per KWh.

A telecoms company reached out to Dale Power Solutions to see if we could help them capture the excess renewable energy they were producing. The need. With 88KW of solar PV on their rooftop, their generation far outweighed their ...

High input power factor and efficiency; Low distortion near sinusoidal input current; Compact, power dense and small footprint solution; Ease of maintenance and operation; Redundancy with N+1 optional inverter and rectifier module arrangements; Remote Communications capability; Available in 24V, 48V, 110V and 220VDC nominal bus voltage ...

We are an Achilles Oil and Gas Europe approved supplier (previously FPAL Verify) and have been providing backup power solutions to the marine, oil and gas sectors for more than 40 years. As well as the Erskine industrial, offshore and marine UPS, our dedicated project management, power management and design teams
