

Djibouti blquette generator

Hello All, I have an AC200L and 2 B300"s. I have been charging them using a Westinghouse gas generator with 3600W / 4650W peak output. When all 3 units are connected together in series using the large supplied cables, they all charge simultaneously through the AC200L. I was having problems (and still am) when I try to charge all 3 units through the ...

Simply because a solar generator should be able to do the light work and some of the hard work, like running small cooking appliances. 1,500wh battery is generally enough power to run necessary items and still have enough power at the end ...
