Product & Services: Focus on continuous measurement of key parameters and storage in datasets, allowing for subsequent application of AI algorithms. Temperatures, emissions, material inventory, value for user, value for owner, ESG reporting and corporate finance.

Vegas Electric is an energy solutions company based on the island of Roatan, Honduras. Founded in 1987 by American electrical engineer Charles George (affectionately known as "Vegas"), the company has been providing electrical and renewable energy solutions to the Bay Islands for more than 30 years.

To achieve this, the Dutch energy sector needs to be smarter, more efficient, and adaptable to the growing integration of renewable energy sources. The integrated software solutions are playing a crucial role in this transformation, empowering Dutch energy companies to optimize operations, integrate renewables, and deliver a reliable energy supply.

Clean power generation is essential for a healthy society, healthy environment and the future of our world. Rising energy consumption has led to the increase of emissions of pollutants and greenhouse gases like CO₂. This has led to a series of harmful effects on the environment, specifically thorough increased average temperatures and consequential effects on
