provide the protection ...

The PPC is designed for real-time control and optimization of the power generation process. It ensures that the solar plant operates efficiently while adhering to grid requirements. Key functions of the PPC include grid compliance, energy management, and coordination of various plant components like inverters and energy storage systems.

Un controlador de planta (PPC) es una plataforma de automatización diseñada para gestionar y optimizar el funcionamiento de un parque solar. Los PPC utilizan un software de control avanzado para operar de manera eficiente la planta y mantener la estabilidad de la red mientras se respetan los requisitos regulatorios.
