

Emtec energy ltd Samoa

The opportunity to begin and grow a career in the Green Energy sector has never been more attractive. We are always looking to speak to people who have the attitude, ability and commitment to support the Green Revolution and the Journey to Net-Zero - if you are interested in career with Emtec Energy visit our careers page

Emtec Energy deliver a turnkey EPC service to Business Owners, Local Authorities, Developers and Energy Companies across Roof Mounted, Ground Mounted and Car Port Solar PV as well as complimentary technologies Such as Battery Storage and EV Charging.

Emtec Energy's partnership with Diageo and EON on the Leven bottling facility solar project demonstrates our proficiency in delivering sustainable energy solutions. The 4.2MW solar installation not only highlights Emtec Energy's capabilities but also aligns with Diageo's commitment to reducing carbon footprint and achieving net-zero targets.

Last week, Emtec Energy attended the Solar & Storage Live event. This three-day experience allowed us to dive into renewable energy, connect with like-minded peers, and explore industry innovations. Our Emtec Energy Stand served as a focal point, attracting many of our clients, suppliers, and new connections.

Emtec Energy's holistic approach includes designing efficient systems, implementing energy storage solutions, and ensuring seamless grid integration. As the commercial solar industry gains momentum in 2024, Emtec Energy's promotion of sustainable energy solutions is proving instrumental in assisting businesses to make the transition towards ...

Emtec Energy's turnkey services included securing grid connection, obtaining planning permission, and providing full design, procurement, installation, and commissioning services. Their installation of a SolarEdge inverter system, renowned for its reliability and efficiency, and an online monitoring platform ensured maximum safety and performance.

Emtec Energy commends the government for this proactive step, demonstrating a much-needed and long-awaited commitment to addressing the climate crisis by recognising the significance of solar technology in the fight against climate change. It highlights the importance of a diverse renewable energy mix and underscores the necessity of taking all ...

Emtec energy ltd Samoa

Emtec Energy demonstrated their expertise and commitment to safety when TÜV SÜD, renowned for its testing and certification services across various sectors including consumer products, industrial, nuclear, clean energy, oil & gas, telecoms, medical, and aerospace, chose them to develop a Solar PV system for their facility.

The result is a highly efficient solar PV system that allows MB DIY to generate renewable energy on-site, significantly reducing their carbon footprint and operational costs. This project highlights Emtec Energy's expertise and serves as a valuable example for other businesses considering renewable energy solutions.
