

Georgia enpal solar

Is enpal a smart home?

Smart Enpal all-in-one solution An all-round smart home With the unique complete Enpal solution with solar system, energy storage, wallbox and in-house Enpal app, you can manage your electricity smartly and increase your independence from power companies to up to 80%. The neighbors will also be amazed.

Why should you buy a solar system from enpal?

Consumers benefit from the green energy generated at home both for their personal use and the sale of excess electricity to the grid at a guaranteed feed-in-tariff. After 20 years, when Enpal's leasing contracts for the solar installations expire, the systems can be bought by the customer for EUR1.

Is enpal a GreenTech Unicorn?

Enpal is Germany's first Greentech unicorn and is one of the fastest-growing energy firms in Europe. It has been recognized in the FT1000 Ranking by Financial Times and Statista. Their unique business model, known as 'solar as a service' or 'solar subscription,' allows customers to install solar panels on roofs without any upfront costs.

Does Georgia Power offer solar?

From home installation and our buy back program, to non-installation options, our goal is to make solar an option for every Georgia Power customer. Learn more about our behind-the-meter solar programs, including the new Renewable and Nonrenewable Resources (RNR) program, and how to interconnect your system.

Is enpal a good business model?

Electricity prices in Germany are now the highest in the EU, but solar power has become more and more affordable. So Enpal's business model - no upfront cost, and low fixed lease payments - is proving popular.

What is enpal's financial structure?

The overall financial structure is an asset backed securities (ABS) transaction: Enpal sold EUR240 million of its claims against customers, generated by selling 8.500 PV-systems to households, to a Special Purpose Vehicle (SPV). The SPV placed these EUR240 million on the capital markets in form of the first residential solar ABS-bond in Europe.

“Our goal is to install one million solar systems by the end of the decade,” says Mario Kohle. “But solar is just the beginning: we plan to offer our customers a comprehensive solution for all their energy needs, from solar energy production and storage to smart metering, and electric mobility”.
