

In a groundbreaking initiative, Aptech Africa has embarked on a mission to bring sustainable energy solutions to remote communities in Equatorial Guinea. Through the installation of 11 solar systems, Aptech Africa is lighting up lives, fostering development, and paving the way for a brighter future.

The PV project, named "Marcovia Solar", will be the first PV plant constructed by Gestamp Solar in the country and is expected to span 180 hectares once completed. Trina Solar will supply more than 160,000 of its high-efficiency utility-grade PC14-310W modules, and the installation will be fitted with 300 solar trackers to maximize the ...

Located in Japan's Ibaraki Prefecture, the 31.6MW solar power plant is developed by Gestamp Solar and is one of the largest utility-scale projects to be developed by a foreign company in Japan. Yingli Spain managing director Fernando Calisalvo said: "This is not the first collaboration between Yingli Spain and Gestamp Solar.

Eiffage Energia S L U is expected to perform operations and maintenance for the solar PV power project for a period of 20 years. About X-ELIO Energy. X-ELIO Energy SL (X-ELIO), formerly Gestamp Solar, is a renewable energy company. The company constructs, design, develops, installs, finances and operates solar photovoltaic plants.
