

Haiti solar panel set for home

Can solar energy be used effectively in Haiti?

Solar energy can be used effectively in Haiti, offering energy self-sufficiency to the most isolated cities in the absence of a power grid. The country's location in the tropics gives it very strong solar energy potential. It is believed that solar energy will play a fundamental role in access to electricity over the next 10 to 15 years.

Is Haiti a solar power market?

Recently, many solar companies have seen Haiti as a huge market potential for solar energy. The founder of 10Power estimates that the potential solar power market is worth over \$500 million. In 2013, the completion of Hôpital Universitaire de Mirebalais came to an end. This hospital is the largest solar-powered hospital in the world.
