

Hiq solar inc Palau

Who owns HiQ solar?

HiQ Solar's fully sealed inverter was recognized by NREL Best Venture Awards 2014, Inter Solar Award 2015 and Global Energy Cleanenergy 2016 Best Solar Product Innovator. HiQ Solar assets will be held by a new subsidiary of Meritronics called Reliable Power, Inc., located in Santa Clara, CA. The business will focus on the following support goals:

What happened to HiQ solar?

We believe HiQ Solar Inc. has shut down their operations after the sale, according to their investors. HiQ Solar, Inc., of Sunnyvale, CA was founded in 2011, and produced high density commercial grade power electronics with advanced technologies for solar and battery storage applications.

What is the Palau solar project?

The Palau Solar project is delivering low emissions and climate resilient infrastructure alongside robust environmental and social standards. Australia, through the AIFFP, has provided AUD31 million in financing to Solar Pacific Pristine Power to support the construction of Palau's first utility-scale solar and battery energy storage facility.

The HiQ Solar systems use either the TrueString (TM) 480V 8 kW inverter or 208V 5.75 kW inverter. For our competitor, Brand S, the primary inverter used is the very popular 24 kW model except for the 208V cases that use smaller single-phase products.

HiQ Solar, Inc. Page 6 of 6 3-phase String on a Cradle HiQ TrueString mounted under the array 5. Reliability LCDs, fans etc. require maintenance and regular replacement. Often these inverters use electrolytic capacitors. Sits in full sun. Not being used as originally intended NEMA6, no electrolytics, no display, no fans. Maintenance-free. Robust,

Palau Solar is a subsidiary of Utiligence, created to design, supply and install domestic solar power throughout the archipelago of the islands of Palau. Through a project with the Asian Development Bank, Palau Solar is transforming the ...

Data with the HiQ Solar Communications Gateway Flexible data access from inside and outside customer networks Alternative system hardware views available from the analytics portal Our Gateway is capable of connecting to over a hundred local HiQ inverters and forms the center for data access. When connected it easily auto-discovers inverters
