

Jamaica solar life

Is solar energy a good source of energy for Jamaicans?

For many Jamaicans, solar energy can prove to be an ideal source of power for homes and businesses due to the increase in oil prices and electricity bills. The Government has been encouraging the use of renewable energy, such as solar energy, as a means of reducing electricity costs.

Can Jamaicans invest in solar energy equipment?

According to Roger Chang, President of the Jamaica Solar Energy Association, more Jamaicans can invest in solar energy equipment for their commercial and residential use with the availability of financing institutions.

Will a private-sector-led project strengthen energy resilience in Jamaica?

Minister of Science, Energy and Technology, Hon. Daryl Vaz, has welcomed a private-sector-led project that will strengthen energy resilience in Jamaica by accelerating the adoption of distributed solar energy.

What is the biggest solar project in Jamaica?

Paradise Park, a US\$65-million investment, is the largest solar project in Jamaica, which is projected to significantly decrease the country's dependence on fossil fuels, while helping the island to reach its sustainable development targets. The solar farm is designed to supply 37 megawatts of power.

How much do solar panels cost in Jamaica?

As of Mar 2023, the average cost of solar panels in Jamaica is \$2.92 per watt making a typical 6000 watt (6 kW) solar system \$12,283 after claiming the 30% federal solar tax credit now available. This is lower than the average price of residential solar power systems across the United States which is currently \$3.00 per watt.

What is the Jamaica energy Resilience Alliance?

Led by the management consulting company, Cadmus Group LLC, based in the United States, the Jamaica Energy Resilience Alliance includes solar energy developers that will mobilise up to US\$50 million in investment funds to support solar project development.
