

Why did CIP buy Mulilo?

CIP assumed control of Mulilo and its assets, which at the time comprised a 25GW pipeline of onshore wind, solar PV, and storage as well as 440MW of operational PV and wind projects. At the time, Niels Holst, a partner at CIP, said the acquisition of Mulilo represented an "attractive opportunity to invest in a growing developer".

Why did CI NMF invest in Mulilo?

CIP partner and NMF I head Niels Holst said: "We are proud to have made CI NMF's first ever investment in South Africa and in a platform company. "Mulilo represents an attractive opportunity for CI NMF I to invest in a growing developer and we are certain that we can accelerate the positive trajectory of the company.

Will Japan develop perovskite solar cells?

The Government of Japan launched a project to support the development of perovskite solar cells. As global competition for the development of perovskite solar cells is intensifying, Japan needs to achieve public implementation of this technology as soon as possible before 2030, the target year of the project.
