

Nigeria ess in electrical

From October 15 to 17 (local time), CHISAGE ESS, together with its strategic partners, showcased its cutting-edge technologies and innovative energy storage solutions at the Nigeria Energy 2024 exhibition. By diving deep into the Nigerian market, we engaged with local customers and industry experts to explore new trends in energy storage across West Africa.

Ensuring a good earthing system to protect an electrical installation is essential. ESS provides a portfolio of products for you to perform tests for 3 and 4 pole resistivity, test system earth grids, soil resistivity to measure the ground capability of passing an electrical current, and earth leakage clampmeters for stakeless earth testing.

Electrical Systems and Services was founded in 1977 in Racine, Wisconsin. As business continued to grow, the company quickly outgrew their humble office in Racine. In 2000 Jay Datt opened a new 13,000 SQFT state of the art headquarters in Sturtevant, just a few miles from the original location. ... ESS self-performs electrical design ...
