

Pioneer energy solutions Bhutan

What is a 500 MW solar project in Bhutan?

The 500 MW solar project, to be located in Gelephu Mindfulness City, will be developed in two phases of 250 MW each over the next two years. Upon completion, it will be the largest solar installation in Bhutan, surpassing all existing projects and contributing to the country's efforts in producing clean, renewable energy to combat climate change.

What will Reliance Enterprises do in Bhutan?

Jointly promoted by Reliance Infrastructure Ltd. and Reliance Power Ltd., Reliance Enterprises will concentrate on enhancing sustainable energy solutions across the country. The new company will implement smart distribution and metering systems, ensuring efficient energy management and accessibility throughout Bhutan.

Will Reliance Group & DHI jointly develop solar and hydropower projects in Bhutan?

Under the agreement, Reliance Group and DHI will jointly develop 500 MW of solar and 770 MW of hydropower projects in Bhutan. The 500 MW solar project, to be located in Gelephu Mindfulness City, will be developed in two phases of 250 MW each over the next two years.

What is Bhutan doing to diversify its energy mix?

The development is part of Bhutan's plans to diversify its energy mix beyond traditional hydropower to include solar and geothermal sources. The strategy involves diversifying project structuring and financing through strategic partnerships. This collaboration is supported by the governments of Bhutan and India.

Other times, a host utility may provide the energy to your community, but your community may hire Pioneer Energy Management to help with the large task that is reading meters, billing for consumption, and collecting payments. We are a service provider who can help with all of that, plus offer direct Customer Support for tenants.
