

Puerto Rico navitas energy

How will Puerto Rico benefit from a solar PV project?

Annually, the solar PV installations will produce approximately 460,000 MWh of energy, enough to power approximately 43,000 homes, and enhance Puerto Rico's grid reliability and energy security. The co-location of the new solar and battery resources will help maximize the project's energy production and improve grid stability.

Will Puerto Rico's solar power system rebirth?

The degree of distributed solar and storage expected in Puerto Rico is an amount that has not been attempted elsewhere. The journey of Puerto Rico's power system from widespread wreckage to renewable and resilient rebirth could be an enduring example for others to follow.

How much money does Puerto Rico have to pay for solar?

Up to \$190 million is available to Puerto Rico's Housing Administration and a private company to pay for solar and battery installations in public housing common areas and subsidized, multifamily housing properties. Another \$175 million is available for certain healthcare and dialysis centers.

Why does Puerto Rico need a better energy system?

Record-setting power outages. High energy costs. These are some of the galvanizing forces that unite the people of Puerto Rico in their commitment to achieve a more resilient, reliable, affordable energy system. Puerto Rico hit a deadly record in 2017, when back-to-back hurricanes destroyed around 80% of the island's electric grid.

How much solar power does Puerto Rico have?

Collectively, the project comprises 200 MW of solar PV and up to 285 MW (1,140 MWh) of stand-alone BESS capacity. Annually, the solar PV installations will produce approximately 460,000 MWh of energy, enough to power approximately 43,000 homes, and enhance Puerto Rico's grid reliability and energy security.

What are the galvanizing forces affecting Puerto Rico's energy system?

Frequent and extreme weather events. Record-setting power outages. High energy costs. These are some of the galvanizing forces that unite the people of Puerto Rico in their commitment to achieve a more resilient, reliable, affordable energy system.
