

Remy smart energy Curaçao

How much does energy cost in Curacao?

Energy Snapshot Curacao This profile provides a snapshot of the energy landscape of Curacao, an autonomous member of the Kingdom of the Netherlands located on the coast of Venezuela. Curacao's utility rates are approximately \$0.26 per kilowatt-hour (kWh), below the Caribbean regional average of \$0.33/kWh.

What is Curacao's energy policy?

In 2009, Curacao developed an energy policy document, which sets out general guidance and governing principles for further study of energy issues.⁴ It suggests the goal of reducing energy consumption by 40% by 2020 and encourages the investigation of combining wind power with storage to provide 100% of the island's energy needs.

What projects is Aqualetra working on in Curacao?

Aqualetra, with six hundred fifteen employees working in nine departments, is a major player in Curacao. Several of the company's long-lasting projects involving green energy, smart meters, and electric cars are outlining, shaping, and potentially developing Curacao's economy and future.

Who is Remy Garaude Verdier?

ERDF: Remy Garaude Verdier, Smart Grids Project Manager within Electricité de France Distribution France (ERDF) Remy Garaude Verdier is a civil engineer with an MBA from Lausanne IMD (Switzerland). He has worked in a variety of jobs during a 10-year career at EDF Group.

Does Curacao need electricity?

Like many island nations, Curacao is highly dependent on imported fossil fuels (more than 95% of the island's electricity is generated using petroleum-based fuels), leaving it vulnerable to global oil price fluctuations that directly impact the cost of electricity.

Why does Curacao face energy security issues?

Curacao faces energy security issues not only due to its reliance on imported fuels but also because of the age of its generation infrastructure. Thirty megawatts (MW) of Aqualetra's generation portfolio is beyond its expected service life and the surplus power from the RdK refinery is subject to frequent outages.

What is Curaçao's position on climate change? According to the Curacao National Commission for UNESCO, in 2022 the Climate Change Committee had declared: "By 2030 Curaçao will be resilient to the adverse impacts of natural hazards and the losses of biodiversity due to climate change and a key player in renewable energy."

These 4 outputs can be used to connect to the smart energy input of the heat pump or the heat pump boiler. Or they can serve as an enabling contact for the electric boiler or accumulator heater. With the adjustable "line logic" these 4 contacts can be controlled on energy rate, solar panel yield, peak consumption,... and/or on week clocks.

My now husband and I visited Curaçao for our honeymoon. I found Remyx Tours in a Curaçao group and we are so thankful we booked him! This tour was absolutely perfect and magical Curaçao was a beautiful island ?We were with Remy for the whole day from 10am to 6pm! We snorkeled. Stopped in the local town of Willemstad and did some shopping.
