

On the sidelines of the 28th United Nations Conference of the Parties on Climate Change (COP28), which ends this Tuesday 12 December 2023 in Dubai, four investment companies have announced a \$52 million ...

In 2020 Power Leone signed an MOU with the Government of Sierra Leone to construct and operate 40 solar mini-grid sites with 1.4 MW capacity across rural Sierra Leone. In 2024, Sierra Leone is constructing and commissioning 17 of these mini-grid sites (800 kW).

The project then attracted the attention of the IFC, whose objective is to finance projects carried out by private companies. The 50 MW project is being carried out by Planet Solar Energy. The company wants to produce 25 MW at a power plant to be built in Makarie Gbanti, Bombali District, 195 km from Freetown, the capital of Sierra Leone.

Three Development Finance Institutions and a renewable fund manager have announced a co-investment of more than \$52 million for Planet Solar, a greenfield 50MW solar power project in Sierra Leone. Planet Solar will be the first large-scale grid-connected solar Independent Power Producer (IPP) project, driving a diversified approach to ...

The signing ceremony, held at State House in Freetown, marks a significant step towards Sierra Leone's commitment to sustainable energy and economic development. The project may include solar PV, floating PV solar, hydro, battery storage, and wind. It aims to improve energy access, create jobs, and support the country's environmental goals.
