Switching to a clean energy source like solar power can help bring down that statistic in a city like Caledonia that is responsible for a large amount of carbon dioxide emissions each year. Caledonia, the average homeowner can lower their carbon ...

New Caledonia is a French territory made up of a group of islands and archipelagoes of Oceania, located in the Coral Sea and the South Pacific Ocean. It has a wide lagoon often considered "the most beautiful lagoon in the world". The territory is also distinguished by biodiversity of astonishing richness and originality: the rate of endemic species is the highest in the world.

The development of clean energy in New Caledonia is still limited but with high potential. The sector is gaining momentum under the combined effects of public impetus and the fall in the cost of renewables. Hospitals are on the list of institutions that need continuous access to electricity to ensure ICU is 24/7 available.

The development of clean energy in New Caledonia is still limited but with high potential. The sector is gaining momentum under the combined effects of public impetus and the fall in the cost of renewables. Hospitals are on the list of ...
