The solar system will generate an average of 2.64kWp, and the inverter is capable of powering items such as LED lights and large deep freezer.

Bouvet Island is a great place to observe penguins and fur seals, particularly chinstrap penguins and macaroni penguins. The macaroni penguin is one of the most common penguin species globally, easily identifiable by its distinctive orange plumes. These migratory penguins primarily feed on crustaceans and prefer breeding in rocky slope areas.

As a result, pues, durante mucho tiempo se pensó que aquello que había visto en 1739 no era más que un iceberg. No obstante, aquella era una ruta muy frecuentada por los balleneros, así que con el paso del tiempo se cartografió mejor la zona, hasta que, en 1964, se sobrevoló por primera vez en helicóptero pequeño y lejano rincón de tierra suspendido en el mar.

1964 Expedition. Because of its location, weather researchers have long thought it a great place to put a weather tower. On 2 April 1964, the Royal Navy's Antarctic ice vessel HMS Protector was sent to the island to investigate a new area of the land created by lava flow ten years prior to the expedition. Lieutenant Commander Allan Crawford and his team ...
