

Solar power system for home in Tonga

What is a solar farm & how can it help Tonga?

Producing energy since August this year, and providing power for up to 10,336 households, the Solar Farm is helping The Government of Tonga pursue its National Energy Roadmap plans to see up to 70% of Tongatapu's electricity generation sourced from renewables by the end of 2025.

Why do we need solar power in Tonga?

Renewables like solar are a significant means for Tonga to expand energy access, stabilize power grids as well as reduce pollution. Considering the shortage of solar expertise and finances for countries like Tonga, the role of independent power producers and the practice of PPA provide solid support to smooth the way for solar deployment.

Where is Tongatapu solar farm located?

Prime Minister of Tonga today announced the official launch of the 6-MW power purchase agreement (PPA) based Tongatapu Solar Farm located at Fualu, Tongatapu, which has supplied electricity to over 10,336 households since August this year.

What is Sunergise Tongatapu solar farm?

The Sunergise Tongatapu Solar Farm is the largest in the South Pacific. It was built as part of a power purchase agreement between Sunergise New Zealand Limited, a Todd Corporation solar company and Tonga Power Limited, with support from the Asian Development Bank.

Who are Sunergise New Zealand & Tonga Power Limited?

This solar project was completed under the partnership between Sunergise New Zealand Limited and Tonga Power Limited with support from the Asian Development Bank (ADB). Sunergise led the construction and meanwhile united local Tongan civil, mechanical and electrical sub-contractors to the team.

Why is Tonga a good country to live in?

As an island country with a total surface area of merely 290 sq mi, Tonga's power generation heavily relies on imported fossil fuels. Renewables like solar are a significant means for Tonga to expand energy access, stabilize power grids as well as reduce pollution.

It will provide 100% electricity accessibility to over 280 households on the island. The system is a hybrid of solar and thermal power, which will ensure a reliable and efficient supply of electricity, even during inclement weather. The OIREP project is the longest standing energy project in Tonga.

Tender description: Supply and Delivery of the Solar Power Kit at GPS Hunga Primary School, Hunga, Tonga
IMPORTANT NOTE: Interested vendors must respond to this tender using the UNOPS eSourcing system, via the UNGM portal order to access the full UNOPS tender details, request clarifications on the tender, and
