New types of solar panels, like flexible ones that can be used on curved surfaces and bifacial panels that capture sunlight from both sides, are already transforming how we think about solar power. Researchers are even developing solar panels for vehicles and clothing! And it's not just about the tech.

Wigton Energy and SunTerra Energy Jamaica have won bids to develop large-scale solar projects in Jamaica following a 100 MW renewables tender held in 2023. Wigton Energy will build a 49.83 MW plant in Clarendon, while SunTerra Energy will construct a 50 MW plant in Trelawny.

At the heart of this model lies the potential for Jamaica to build a network of 10 to 12 interconnected green mini-grids. These mini-grids, powered by renewable sources such as solar, wind, biomass, and energy storage, ...

At the heart of this model lies the potential for Jamaica to build a network of 10 to 12 interconnected green mini-grids. These mini-grids, powered by renewable sources such as solar, wind, biomass, and energy storage, could be designed to operate independently or in conjunction with a national grid.

2 ???· The NWC expects to spend \$11.8 billion on its light and telephone bills this fiscal year, up from \$10 billion a year earlier, according to the Jamaica Public Bodies report published by the Ministry of Finance.
