

Sweden equans solar and storage

Who is equans solar & storage?

Equans Solar & Storage relies on a team of 1,500 employees spread across 15 countries on five continents, promoting a culture of safety, compliance, and social sustainability. It develops and implements high-performance solar photovoltaic and storage solutions to meet the specific ambitions and constraints of its local clients.

Who is building Sweden's largest solar farm?

Solkompaniet and Bouygues Energies & Services are building Sweden's first truly large-scale solar farm on behalf of Neoen and Alight at Hultsfred airport. Solkompaniet and Bouygues Energies & Services, a subsidiary of Equans, entered in a collaboration in August 2023 through a Joint Venture to build Sweden's largest solar farm together.

Why should we build a solar farm in Sweden?

"We look forward to contributing to this breakthrough in Swedish solar power. The size of the solar farm will be on par with large solar farms in Europe. Building truly large-scale solar farms is the most efficient way to quickly increase the share of inexpensive renewable electricity in Sweden's energy mix.

Equans Solar & Storage offers integrated and high-performance solar and storage solutions that cover the entire value chain, from design to operation, including installation and maintenance. It ensures optimised integration with the electrical grid, which is a major asset, especially in regions

Equans, through its subsidiary Bouygues Energies & Services, the top international EPC player, will mobilise their expertise under its new brand Equans Solar & Storage to provide a bespoke offering to Low Carbon for the development, construction and operation of large-scale Solar PV as well as BESS projects in selected countries.

Equans, through its subsidiary Bouygues Energies & Services, the top international EPC player, will mobilise their expertise under its new brand Equans Solar & Storage to provide a bespoke offering to Low Carbon for the ...

Equans and global renewable energy company Low Carbon are pleased to announce the signing of a Memorandum of Understanding to cooperate on accelerating the development of large-scale solar PV and battery energy storage system (BESS) projects in the UK, Europe and North America. Low Carbon will benefit from Equans Solar & Storage's expertise in the [...]

Giga Buffalo - Lithium-ion battery storage system - Lelystad, The Netherlands . The Netherlands' largest battery project in 2022, directly connected to two major wind farms. As EPC, Equans realised the entire system, including the medium-voltage connection, installation of batteries, all cabling, and all civil works

Sweden equans solar and storage

(such as foundations).

Equans Solar & Storage and Destia are pleased to announce the signing of a Memorandum of Understanding (MoU) to cooperate on accelerating the development of large-scale solar PV in Finland. As the demand for green electricity grows in Finland, large-scale solar farms shall take a growing share in the mix in the very coming years. Destia sees ...

How EQUANS Solar & Storage contributes to the second electricity revolution: More, bigger & faster! By Elisabeth Benedetto, Executive Vice President of the Energy BU at Bouygues Energies ...

Equans Solar & Storage, Destia and Colas teams together at the Bouygues Construction Challenger site. "The Finnish solar PV market provides an interesting opportunity as the large-scale projects are starting to emerge. We design and deliver turnkey utility scale solar PV farms of the highest quality

We design, install and commission large scale solar PV farms for our clients. Supplying renewable energy from solar power plants enables local communities to reduce costs and reduce their carbon footprint.

We develop and deliver up to grid-scale Battery Energy Storage Solutions (BESS) for public and private sector, both Grid scale and Behind the Meter (BtM). Our solutions include market leading energy management software to maximise Firm Frequency Response (FFR), Capacity Market, Balancing mechanism, Triads and dynamic containment, as well as ...

Equans, a global leader with an international presence, offers comprehensive solutions in the solar and energy services sector. With our deep technical experience and 15-year track record in solar and storage, we specialize in every aspect of the value chain, from design and engineering to installation, operation, and maintenance of solar ...

By expanding our geographical footprint and embracing cutting-edge solutions such as hybrid projects, agri-PV, floating solar, and robotisation, we are not only contributing ...

Operating in 15 countries, with more than 1,500 experts dedicated to solar PV and high voltage, Equans Solar & Storage has installed 5.5 GW solar energy capacity worldwide, 550 MWh BESS and is operating and maintaining approximately 2GW of solar PV plants since 2010. Equans Solar & Storage is an Equans" speciality brand. Equans, a Bouygues ...

Equans and global renewable energy company Low Carbon are pleased to announce the signing of a Memorandum of Understanding (MoU) to cooperate on accelerating the development of large-scale solar...

Equans Solar & Storage immediately benefits from a wealth of experience, with its teams successfully installing 5.5 GW of solar energy and operating 2 GW of photovoltaic solar plants worldwide. Elisabeth Benedetto, General Manager of Energies, Solar & Storage at Equans, expressed this vision:

Sweden equans solar and storage

We activate our in-house and local expertise (design, installation, maintenance, PV project management, BESS, grid integration, substations...) to successfully develop and implement integrated, turnkey, tried-and-true solar PV and ...
