

Up energy group Niue

Where is upenergy based?

Almost 90% of the UpEnergy Team is based on the ground across 8 African markets. Additionally, we have projects under development in Latin America and Asia. UpEnergy is proud to announce Tanzania's first-ever Article 6 authorization for carbon credits, a landmark moment in international climate finance.

What are upenergy projects?

UpEnergy projects also support those most vulnerable within agricultural supply chains through targeted carbon removal projects, such as Biochar and Agroforestry, designed not only to mitigate climate change but also deliver value back to communities at risk.

Why should you choose upenergy?

This ensures we deliver projects with high integrity, measurable impact, and significant social benefit. UpEnergy fights energy poverty by delivering clean, life-improving technologies such as electric cooking, safe water systems, and emission-reducing charcoal stoves in local communities across Africa and beyond.

Chris Bagnall, Group Marketing, UpEnergy Group chris@upenergygroup . UpEnergy Group. UpEnergy delivers high-impact, emissions-reducing projects that accelerate decarbonisation, fight energy poverty and benefit low-income communities most at risk from climate change.

Welcome to UPPCL . The creation of Uttar Pradesh Power Corporation Ltd. (UPPCL) on January 14, 2000 is the result of power sector reforms and restructuring in UP (India) which is the focal point of the Power Sector, responsible for planning and managing the sector through its transmission, distribution and supply of electricity.
