What is Western Sahara's green power capacity?

Western Sahara's current green power capacity is about 1.3 gigawatts, or about a quarter of the nation's total renewables capacity. A project to develop a 3-gigawatt cable linking renewable plants in the territory to central Morocco has attracted interest from private investors, said the official.

Will Morocco double green electricity production in Western Sahara?

(Bloomberg) -- Morocco, buoyed by recent foreign recognition of its rule over Western Sahara, plans to double green electricity production in the disputed territory to meet growing demand before it co-hosts the 2030 FIFA World Cup.

Why is Sahara a key shareholder in some African refineries?

Sahara is a key shareholder in some African refineries, some of which include; Societe Ivoirienne de Raffinage (SIR), Societe Africaine de Raffinage (SAR) refinery to mention a few, facilitating the refining of its own crude oil in order to capture the full value of the product transformation.

Much of Western Sahara remains under de-facto annexation by Morocco -- a violation of international law. In 2010, Morocco arrested 65-year-old Sahrawi activist Sid Ahmed Lemjaïd, who has long advocated against Morocco's sale of phosphates from Western Sahara, after he visited a Sahrawi refugee camp to interview its residents. He was later ...
