

ProfiSNAP is a new installation system for the xEnergy Basic BP range and based on a new front cover locking mechanism. The new snap technology not only minimizes the number of parts, but also significantly reduces the complexity and time required to assemble and disassemble the covers.

xEnergy Basic BP is not only the smallest distribution board of the whole xEnergy family, but also the most flexible and versatile one. By offering certified systems with various mounting methods, we can provide customized solutions for all kinds of applications. Flush-mounted, surface-mounted, and floor standing versions

xEnergy Basic is a wall- or floor-mounted enclosure for electrical distribution systems up to 630 A. It is not only the smallest distribution board in our xEnergy family, but also the most flexible and versatile of the entire range. The variety of different types and sizes allows it to be used in almost every possible application. Certified as a low-voltage distribution board that may be ...
